UNDER STRONG GUARD

The Trials of Suspected Murderers of Goebel Are Commenced.

F. W. GOLDEN'S NAME IS NOT CALLED

Among the Witnesses For the State But He Is Said to Be at Frankfort, Ready to Testify When Wanted.

Frankfort, Ky., March 23.—Sergeant F. Wharton Golden, who is alleged to be the chief witness for the commonwealth, is said to be in the city, but his whereabouts are being kept a secret, and it is not known at what juncture he is to be placed on the stand.

Frankfort, Ky., March 23.—A squad of 25 extra police and deputy sheriffs guarded the outer entrance to the court house while a file of soldiers stood at the doors and passed on the credentials of persons entering the room.

The general public was excluded on an order of Judge Moore, only attorneys, relatives of the accused, witnesses and officers of the court being admitted. Those admitted, however, soon filled the court room on the second floor of the building. The Lexington and Winchester companies, armed with Winchester rifles, were scattered through various rooms. Not much more than the ordinary crowd was on the streets, and there was no excitement. Arthur Goebel appeared at the court house at 9 a. m. and later Ex-Governor John Young Brown, W. R. Ramsey, R. C. Kinkadee and J. C. Sims, attorneys for the defense arrived.

Judge Moore opened his court at 10 o'clock. The prisoners, Republican Secretary of State Caleb Powers, W. H. Culton and John Davis, were brought into the court room and took seats by their counsel. The commonwealth witnesses were called numbering 40. The name of Sergeant Golden was not in the list.

At the conclusion of the call of commonwealth's witnesses, County Attorney Polsgrove announced that he was ready for trial in the case of the commonwealth against Powers.

Ex-Governor Brown read the warrant against Powers charging him with being an accessory to the murder of William Goebel and asked dismissal of the defendant as the warrant was fatally defective in not acknowledging that the crime was committed in Franklin county, and did not even show the offense to have been committed in Kentucky. County Attorney Polsgrove said the warrant followed the lines laid down in the criminal case. Judge Moore overruled the objection to the form of the warrant.

August Muninger, the Covington undertaker, was the first witness called.

Ex-Governor Brown asked that the witnesses be excluded from the room and Judge Moore ordered the witnesses to retire and admonished them not to talk to anybody on the outside.

Judge George Denny and W. G. Dunlap, of Lexington, who had been added to the list of attorneys for the defense, took seats with their associate counsel.

Eph Lillard, warden of the Frankfort penitentiary, was the first witness sworn. He was with Senator Goebel when the latter was shot. He walked ahead of Senator Goebel and was just entering the state house when the shot was fired. He turned back from the state house steps and saw what had happened. He looked toward the executive building and saw that the second window of the corner room was slightly raised. This was the office of the secretary of state. He thought the shot had been fired from this room. There were several other shots but the latter did not come from the same place. The first shot was evidently from a rifle, while the others seemed to be from pistols, and were not so clear and distinct as the first.

Cross examined by Ex-Governor Brown, Colonel Lillard said he saw nobody in the room from which the shot seemed to have been fired and did not see any one in the main door or on the steps of the building at the time of the shooting. Asked if he or Jack Chinn, who was with Goebel, drew a pistol, he said, "I did not draw my pistol and I did not see Chinn draw one. I don't think he did." Detective Armstrong, of Louisville, said that after the military authorities allowed the detectives to enter the executive building several days after the shooting he visited the various state officers for the purpose of securing the names of persons who were in the building at the time of the shooting. He said that Secretary Powers refused to tell him who was in the office of the secretary of state at the time of the shooting and declined to say who was in charge, but said he (Powers) was out of the city that day.

At 1:40 p. m. the prosecution had no

witnesses to present and some debate ensued over the request of Attorney Sims that the commonwealth furnish the defense the names of witnesses yet to be heard, whether they have been subpoenaed or not. This was regarded as an effort by the defense to compel the prosecution to disclose whether or not Wharton Golden, who is said to have made a confession, will be introduced as a witness. Judge Moore finally ruled that the commonwealth must produce the list.

County Attorney Polsgrove then gave the names of Charles Finley, Jim and Berry Howard, John Bowers, Sld Barker, F. Wharton Golden and Dr. W. H. Johnson as probable witnesses.

MOB GATHERS.

Judge Hesitates About Sending Troops to Defend Negro.

Richmond, Va., March 23.—The negro who, with a white man, killed Justice Saunders and Mr. Welton in Greenville county, has been captured at Stoney Creek, in Sussex. A posse from Emporia has gone after him. Soon after the receipt of the first news here Governor Tyler received a telegram from the judge of Greenville County court saying that threats had been made against his (the judge's) life in case soldiers are sent. The governor cannot send the troops except at the request of the civil authorities and he has wired the judge to know if his telegram is a withdrawal of the request for troops. The governor is holding a train pending a reply.

Saw the President.

Washington, March 23.—Colonel Andrew Cowan, a merchant of Louisville, Ky., Samuel J. Roberts, editor of the Lexington Leader, and John Marshall, Republican lieutenant governor of the state, all prominent Republicans and friends of Governor Taylor, called at the White House before the cabinet meeting and had a half hour's conversation with the president on the political situation in Kentucky. On leaving the executive mansion they stated that they had called on Mr. McKinley for the sole purpose of explaining to him the exact situation in the state and what had led up to the present condition of affairs. They said that they assured the president that they did not want federal troops to be sent to the state or any federal interference whatever.

Senator Foraker's Instructions.

Washington, March 23.—The Republican caucus committee of the senate authorized Senator Foraker in definite terms to propose the separation of the tariff feature from the Porto Rican governmental bill and to attempt to pass the house tariff bill without amendment. The program is to vote down all amendments if possible to do so and pass the bill as it came from the house without any changes whatever.

Witness Lynched.

Ripley, Tenn., March 23.—In the heart of the town the body of a negro named Louis Rice was found dangling from a limb of a tree. The lynching grew out of a trial in the Circuit court of Lauderdale county, during the course of which Rice testified in favor of one of his color who was charged with the murder of a white man named Goodrich.

Pinkie American Girl.

Naples, March 23.—A thief attempted to rob two American ladies, Mrs. and Miss Burges of Boston, who were leaving a shop. He seized the purse of Miss Burges, whereupon she seized him by the throat, threw him to the ground, recovered her property, and then calmly requested him to be off.

Pay For Retired Civil Employees.

Washington, March 23.—A national civil service retirement association has been organized here. Its object is to secure the passage of a bill by congress providing for the retirement of employees of the government who are under civil service regulations by paying them an annuity.

Short Line to Chicago.

Richmond, Ind., March 23.—Articles of incorporation were filed here by the Cincinnati, Richmond and Muncie Railway company. By the papers it is proposed to build a short line from Cincinnati to Chicago. Eastern capitalists are back of the plan.

Call of Silver Republicans.

Duluth, Minn., March 23.—Chairman Charles A. Towne of the national committee of the Silver Republicans has issued a call for a national convention to be held at Kansas City, Mo., on July 4, 1900.

Death of Judge MacMath.

Cleveland, O., March 23.—Ex-Judge Jesse H. MacMath, who was consul general to Morocco during President Lincoln's administration, died at his home in this city of heart disease aged 67.

Washington, March 23.—The president nominated Walter H. Chamberlain, of Chicago, to be assistant commissioner of patents.

WILL DELAY THE VOTE

On the Measure Governing Trade Relations With Porto Rico.

FREE TRADE REPUBLICANS FAVOR IT

Tariff Advocates Proposed the Enlargement of Articles of Export In Which Opponents Are Interested.

Washington, March 23.—The senate has adopted the conference report on the Porto Rican appropriation bill. The vote stood 35 to 5.

Washington, March 23.—The element in the Republican ranks in the senate favoring free trade with Porto Rico decided at a conference to oppose any action looking to an early vote and to ask for further time in case the bill would come up.

In the committee the opinion was strongly expressed that any changes whatever in the house bill would endanger its acceptance by that body and in the end this fact controlled the committee's decision.

There was, however, a disposition manifested to placate the free traders by making various amendments to the governmental bill. The tariff advocates have gone so far as to draft amendments to that measure which are intended both to correct administrative defects in the house bill, also to meet many of the objections to the house tariff measures. One of the amendments looks to the enlargement of the free trade list so as to include most of the articles of export in which the constituents of the free trade senators are interested. There is also a proposition looking to the entire removal of the duty on articles from the United States going into Porto Rico.

The action of the committee was soon made known to the free traders and it immediately became evident that they were not satisfied with the situation. A hurried conference was called in Senator Proctor's committee room, which was attended by about 10 senators.

These included not only the iron board free traders, but others who have not yet taken a decided position against all Porto Rico tariff propositions. They did not enter into any detailed discussion of the proposition of the steering committee, but contented themselves with a decision to oppose any proposition looking to the fixing of a time to vote on either the house tariff bill or the senate governmental bill.

They were unanimously of the opinion that delay meant gain for the public good, and in the senate a canvass of the Republican senators was made with the result it was stated that 15 could be found who would oppose hasty action. Of these it was stated 10 were unalterably opposed to a tariff on our commerce with Porto Rico. It was stated explicitly that the proposition for a vote next Wednesday by Senator Proctor on behalf of the free traders would not be renewed.

Want Trial by Jury.

Washington, March 23.—President Gompers, of the Federation of Labor, C. S. Darrow, of Chicago, and others identified with organized labor appeared before the judiciary committee of the house in advocacy of the bill restricting the issuance of injunctions in time of labor disturbances. Mr. Darrow stated that the working people considered this resort to injunction a flagrant infringement of their rights, which had grown to an alarming extent of late. Commencing with the great Chicago strike, he said, when Debs was arrested, down to the present time, the first act in the case of a strike was to rush to the courts for an injunction. He cited the Debs case as typical and related how a "blanket injunction" was issued against a number of those connected with the American Railway union. Mr. Gompers urged that the labor interests wanted to retain the time-honored trial by jury.

Macrum at Washington.

Washington, March 23.—Former Consul Macrum was at the capital, having come on from his home in response to a telegram from Representative Wheeler, of Kentucky, bidding him to appear before the house committee on foreign affairs. He saw Representative Taylor, of Ohio, who secured his appointment as consul at Pretoria, and Mr. Wheeler. The latter arranged to see Chairman Hitt, of the foreign affairs committee, and have the evidence of Mr. Macrum taken early next week. Mr. Wheeler says he will urge that the inquiry take place before the full committee.

Copies of Letters Desired.

Washington, March 23.—The house adopted a resolution calling upon the

secretary of state for copies of letters on file in the department from citizens of the United States complaining of ill treatment while in the South African republics. This was pension day in the house and upon motion the house went into committee of the whole to consider pension legislation.

A Lively Debate.

Washington, March 23.—The debate in the senate on the Porto Rico appropriation bill was participated in by Senators Spooner, Gallinger and Tillman. They took a wide range, covering the southern race question, Hawaii and the Philippines. Mr. Spooner took Mr. Tillman to task for the use of certain words and expressions which made the colloquy quite interesting.

OHIO LEGISLATURE.

Both Branches Transact Business and Adjourn For the Week.

Columbus, O., March 23.—Mr. Chapman, of Gallia, will introduce a bill to provide for a uniform method of county nominating conventions. It provides for the selection at primary elections of a committeeman for each voting precinct in the county for a period of one year, such committee to be the controlling committee. This committee shall determine the time of holding a convention to nominate candidates for county offices and the election of delegates thereto at primary election, 10 days' notice by publication to be given. The committeemen shall be the supervisors of such election, and the judges and clerks representing the party upon the local election board shall be the judges and one clerk, an additional clerk to be chosen by viva voce vote. The election of delegates shall thereupon be conducted on the general plan of the Australian ballot system.

Bills passed by the house were: S. B., to increase the per capita from one to two cents and the maximum from \$400 to \$500 allowance to agricultural societies for county fairs; H. B., authorizing commissioners of Lucas county to issue \$5,000 bonds to construct highway by deflecting the road which now crosses Prospect centennial grounds so as to make a detour of the centennial site.

Senator Howard's bill to increase the allowance from \$35 to \$50 for burial of an indigent soldier, which was defeated Wednesday, was, on motion of Mr. Allen, reconsidered and restored to the calendar.

Mr. Seese's bill requiring that in villages poll tax may be worked on sidewalks was favorably reported by the committee on public ways.

Mr. DeRan's bicycle bill was favorably reported with an amendment requiring the posting of notices on at least principal thoroughfares in cities that riding on sidewalks was prohibited.

The composite fish and game bill was reported to the house by the committee on fish culture and game with a number of amendments affecting the hunting season and the bill was made a special order for Tuesday.

The committee on municipal affairs reported the Russell bill to prohibit nepotism in state institutions amended so that the inhibition shall not go beyond first cousins.

The Ankeney Interurban bill was reported without recommendation by the committee on public ways, and Mr. Ankeney gave notice that he would offer a substitute, which was ordered printed.

The substitute is the essence of the Tuler and Ankeney bills. It fixes the standard gauge for all interurban roads at 4 feet 8½ inches, provides for a third rail if the width does not correspond to local lines, and provides for an appeal from the terms of a grant prescribed by council to the Common Pleas court, or to the Probate court if the Common Pleas court is not in session.

The senate was in session only half an hour. Two local bills were introduced.

Both branches of the legislature adjourned till Monday.

Washington, March 23.—Governor Steunenberg, of Idaho, continued his testimony before the Couer d'Alene investigation, being cross examined by F. C. Robertson, attorney for those prosecuting the charges. The governor stated that if any arrests were made prior to the issuance of his proclamation it was with his authorization and approval and because of his general authority as chief executive of the state. When further questioned as to just who was responsible for arrests, Governor Steunenberg said: "I assume responsibility for every arrest made in Shoshone county by General Merlam or any one else." He was asked if he assumed this responsibility in the case of a man brought from Montana and naming, it was alleged, to "kidnaping." Governor Steunenberg answered that if it amounted to that he assumed responsibility for it.

NO RELIEF IS IN SIGHT

For Unfortunate Denizens Who Are Cooped Up at Mafeking.

GATACRE'S CAPTURE NOT BELIEVED.

It is Reported That President Kruger Has Issued a Proclamation That the Russians Have Occupied London.

London, March 23.—Colonel Plumer apparently has retired to Crocodile Pools and Mafeking seems further off than ever from relief.

This news was communicated in a despatch from Bulowoyo, dated Monday, March 19. These advices add that the hospital train has been brought back to Gaberones, though the correspondent further says it is thought the object of the Boer demonstrations of March 15 and 16 were to cover the removal of the siege guns from Mafeking.

General French's activity in the Orange Free State may well be preliminary to a forward movement by Lord Roberts with the main army.

A despatch from Bloemfontein dated Thursday, March 22, says President Kruger is reported to have issued a proclamation declaring Great Britain is in dire distress and that the Russians have occupied London. A Springfield telegram published in the second edition of the Times says: The apparent submissive attitude of the Free States should be accepted with caution. The large proportion of obsolete and inferior weapons being turned in by them to the British is giving the impression that large stores of modern Mausers are being concealed.

The "Outlook's" special correspondent at Cape Town says: Feeling is running strong against the leniency with which rebels of Cape Colony and Natal are being treated by the British authorities.

Not Confirmed.

London, March 23.—No confirmation has been received of a very sensational rumor emanating from the Boer camp at Kroonstadt, that General Gatacre and his staff with a number of guns have been captured by Commandant Olivier. As a matter of fact, a news telegram from Bloemfontein shows the British general to have been there at a later date than that of his alleged capture.

French's Movements.

Bloemfontein, March 23.—General French, with a brigade of cavalry and mounted infantry, has arrived at Thabanchu and opened heliographic communication with Maseru. He reports all well.

Cavalry Brigade Fighting.

London, March 23.—According to a special despatch from Cape Town dated March 22, General French's cavalry brigade is fighting east of Bloemfontein.

The New Carnegie Company.

Pittsburg, Pa., March 23.—It is expected that all the details of the reorganization of the Carnegie interests under the agreement by which the differences between H. C. Frick and Andrew Carnegie were wiped out will be settled at once. The final papers are being signed by the thirty-odd partners in the Carnegie Steel company, limited. J. B. Dill, the New York attorney, who, with C. M. Schwab, is credited with bringing the warring partners together, reached Pittsburg at an early hour and has been in conference with the heads of the big concern ever since. The new Carnegie company will be established under the New Jersey laws. One of the principal features of the Carnegie company plan will be the provision that if any stockholder wishes to dispose of his interests he will make known the fact to a board of appraisers, consisting of three stockholders, who will declare its value and the company will buy it at the price thus fixed.

Fortified of an Advance.

Indianapolis, Ind., March 23.—John Mitchell, president of the United Mine workers, sent word from headquarters at Washington that the miners of Myrdsdale, Pa., and the Georges Creek, Md., fields, known as district No. 16, with 16,000 men, have been notified by operators that on April 1 an advance of 10 cents a ton will be made.

It Rained at Macon.

Macon, Ga., March 23.—Despite a drizzling rain, Admiral Dewey and party reviewed thousands of school children of Macon, who were stretched in a long line on the principal street. The Gordon institute cadets of Barnesville, formed his escort. The admiral's response to cheers attested his appreciation of the greeting.

The Lancaster Record, independent, but whose editor is a prominent Republican, says regarding the murder of Governor Goebel:

Every man who had any connection with the affair should be hanged, and should it develop that any one knew of the plot and failed to reveal it he should be sent to the penitentiary, for had he revealed the conspiracy it might have saved Mr. Goebel's life, and the State from bearing the shame of the foulest crime ever committed in a civilized community.

This Porto Rico outrage is breeding a rebellion against expansion. If we are not to expand except as imperialists, making ourselves hated as oppressors where we go, there will be an irresistible demand for the abandonment of a policy that cannot be brought into harmony with the Constitution and that denies to others the rights which we claim in the Declaration of Independence for ourselves as natural and inalienable.—Philadelphia North American, Rep.

The North American is one of the most conservative of Republican journals. What it says is to the point and shows the extent of the growing sentiment against McKinley's expansion policy.

LANDSAY MAY GET IT.

Judgeship for New Eastern Kentucky District—The President Likes Him.
Would Recognize Old Democrats.

WASHINGTON, March 21.—The bill dividing the Kentucky Federal Court district into two parts is sure to pass both houses of Congress when it is reported favorably by the Judiciary committee. There is no doubt that it will be followed with prompt establishment of the new boundaries and the organization of the new Eastern district court. Owing to this there is much speculation here as to who will be given the appointment as Judge of the new district.

On account of the great fondness of President McKinley for Senator William Lindsay the belief is current here that the President will very likely compliment Senator Lindsay with the appointment and at the same time testify to the regard in which he holds the gold standard Democrats of Kentucky. Senator Lindsay will soon retire from the upper house of Congress, and by that time the bill will have been enacted.

Senator Lindsay as Judge of the court would doubtless be well received in Kentucky. Everything considered, he is excellently qualified to fill the position.

ELECTION BETS

Results in all the Parties Being Held to Answer to the Grand Jury.

Among the most interesting cases on the docket at Williamstown this week was a suit brought to recover some election bets made during the late campaign, and brought by some of the best and most influential citizens of Grant County.

The amount of all the suits involved was only about \$110, but about forty witnesses and friends on each side accompanied the contestants to town to take a part in and witness trial.

Judge Westover rendered a decision unfavorable to the plaintiff, but at the same time imposed a fine on each of the bettors to the amount which he had staked, and held each one under bond to await the action of the grand jury.

The County Attorney in the meantime is laughing up his sleeve over the delectable picking he will have when Circuit Court meets.

PREACHING at Mitchell Chapel this evening at 7 o'clock by Rev. Dr. Vaughn, Presiding Elder. To-morrow at 10:30 the pastor will preach and to-morrow night at 7 Dr. Vaughn will preach. Lord's Supper at close of Sunday night sermon. All invited.

Rev. R. A. STRAUSS and Hattie Adams, colored, were married Thursday.

Prevented a Tragedy.

Timely information given Mrs. George Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Medical Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c. and \$1. Every bottle guaranteed. Trial bottles free at J. Jas. Wood & Son's drug store.

FOR THE FARMER.

Shortage of 20 Per Cent. in Last Year's Tobacco Crop—The Mule Industry.
Other Items.

The Weed: "There is a shortage of at least 20 per cent. in the burley crop of Kentucky. Manufacturers who are holding back, expecting to secure cheap tobacco later on, had best think the matter over a little bit, and get their selection of tobacco before too late. The market will certainly go no lower on the present crop, and all indications point to prices getting at least 3 or 4 cents higher on the better grades before the next crop comes to the market."

Notwithstanding all the talk of good times wheat is still selling at only 60 to 65 cents a bushel.

Notwithstanding many farmers have begun to turn their attention to the mule-raising industry, it is claimed that it will take four or five years before the stock of mules is fully replenished. There was never such a scarcity of them in the country, while the demand is strong and increasing in strength. Farmers know that mule money is the most satisfactory that they can get hold of, and business men have learned that a thousand dollars of money paid out in the country for mules has a greater effect than the same amount paid for wheat or any other commodity, says an exchange.

The total value of the eggs and chickens marketed in the United States last year was \$200,000,000. The magnitude of the poultry industry is made more evident in the fact that the value of the 1898 potato crop was only \$80,000,000, and the total value of the pig iron output seldom exceeds \$130,000,000, while the annual output of coal amounts only to about \$200,000,000.

Shelby Sentinel: "More tobacco beds have been burned during the past week than ever before known during the same length of time. The present prospect is for a tremendous crop."

"Quo Vadis."

"Quo Vadis," the entire original production, cast, scenery and all, will be presented at Washington Opera House next Saturday night. While it is described as a religious play, it is not one that appeals alone to the believers in Christianity. A striking instance of this fact occurred recently in a Chicago book store. A lady who was purchasing Christmas presents for her friends requested the clerk to select a book for a gentleman who was a devout Christian. The clerk immediately handed her "Quo Vadis." "Now," she continued, "I want a book for a gentleman who is not a Christian," and the clerk handed her another volume of "Quo Vadis." The same lights and shades of characters and beliefs which formed the foundation of the popularity of the novel have been preserved by the dramatist in his play, and will cause his work to be witnessed by thousands as one of the grandest dramatic triumphs of modern times.

Some Spring Silk Suggestions!

Firstly, we would suggest that you inspect our immense and choice stock of new Spring Silks before you make your purchases. We use no words to induce you to buy, the Silks must speak for themselves. Their prettiness and exclusiveness of designs, their goodness in quality and lowness in price will be eloquent demonstrations of their worthiness even to the poorest silk judges.

Secondly, we do not know whether to suggest plain taffetas or fancy silk; they are all so pretty and stylish. We can merely mention prices; ask you to compare and make your choice. Plain Taffetas in all colors at 49c and 89c. In black also at \$1 and \$1.35. Our stock of fancy Silks was never so large or select. They come in the new insertion and corded effects. Prices 79c., 89c., \$1, \$1.39, \$1.50, most of these are in waist patterns only. New Foulards with the new sheen finish worth \$1.25, our price 89c. yard. The very latest fad is the silk handkerchief waist. We have 'em at \$3.50 the pattern. Your inspection cordially invited.

Numerous Needful Novelties!

The many little novelties that go to make the stylish costume complete are well represented here. The new Pulley Belts 25c. to 98c. each. Pulley Belt Buckles 25c. Pulley Belt Rings from 2c. to 25c. each. Mull turn over collars at 15c., 19c. and 25c. The new lace ties from 50c. to \$1.25. Mercerised all over laces in black, ecru and white from 98c. to \$3.25 a yard. Lace applique bands from 15c. to \$2.50 a yard. Jetted net from \$1.25 to \$2.25 a yard. Besides these we have the latest dainty Cream laces tucked Mouse-line and Swiss and all the new trimmings that Dame Fashion decrees as up to date.

A NOBLE WOMAN GONE.

Death of Mrs. D. M. Runyon at an Early Hour This Morning—Funeral Monday at Lexington.

Mrs. D. M. Runyon, whose critical illness was mentioned by the BULLETIN Friday, died at her home on Sutton street this morning at half past 1 o'clock. She had been ill five months with heart trouble.

Mrs. Runyon was a daughter of the late Rev. Walter Warder, for many years pastor of the Mayslick Baptist Church. She was born in Mayslick Jan. 29th, 1820, and was united in marriage to David M. Runyon Jan. 25th, 1843. Her husband survives.

Mrs. Runyon was a devoted member of the Baptist Church from her girlhood; a woman of exceptionally fine character, loyal always to her friends, and one of whom it can be truly said: "Blessed are the pure in heart, for they shall see God."

The burial will take place in Lexington Monday morning at 10 o'clock.

Removed.

I will move my shaving parlor on Monday, March 26, to Fountain Square, next door to Wood Bros' meat shop. Your patronage is respectfully solicited.

A PRACTICAL LESSON

Showing How the Board of Trade is Helping Maysville's Business Men.

There is not a business in our city which is not helped by the Board of Trade. To give you evidence we produce the following:

Whenever a number of persons are drawn to Maysville some buy one thing, some another and from one to all the whole business fabric is woven and the garment finished. Take the matter of chewing tobacco. Messrs. Russell and Dodson sell it only by wholesale; therefore no effort the Board of Trade makes can profit these gentlemen directly, but every retail house in our city where chewing tobacco is sold must have a quantity commensurate with the demand. The more customers drawn to them requires a greater supply, so these retail establishments immediately go to Messrs. Russell and Dodson and purchase large quantities.

One can readily see how indirectly these wholesale houses are helped, and so on might the evidence be published to show how helpful to every line are the efforts of the Board of Trade.

By all means keep it up. Rally to its support now and it will do you good.

REPORTED SOLD.

Rumor That the C. and O. Has Bought the Brooksville Road and Will Extend it.

It is reported that the Brooksville and Wellsburg railroad has changed hands, the Chesapeake and Ohio being the purchasers. It is the probable intention of that system to extend the first named road to Salt Lick in Bath County connecting at that place with the Lexington division of the C. and O. If extended it will pass through Germantown and Mayslick to Johnson's Junction where it will follow the Flemingsburg narrow gauge road, they having obtained an option upon that line also. The Brooksville line and the Fleming narrow gauge will be greatly improved and the entire road placed on the high plane of excellence that the Chesapeake and Ohio enjoys.

Story of a Slave.

To be bound hand and foot by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a god-send to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by J. Jas. Wood & Son, druggists.

PITHY POLITICAL POINTS.

[By Robert Taylor.]

That deed at Frankfort continues to grow blacker and blacker.

Assassination is a word that Republicans would like to have expunged from the dictionary.

Col. Jack Chinn may not be a saint, but he has a heart larger than throbs in the whole Republican breast.

The Republicans have simply advertised the straits they are in by accusing Col. Jack Chinn of assassinating Goebel.

Mr. Brown is now showing the band he played during the late contest, and he is also discovering the cloven foot to the gaze of everyone.

The cry, "Remember the assassination of Governor Goebel," will down the Republicans at elections in Kentucky for long years to come.

The Republicans, with their usual modesty, are going into a trial of the merits of their case with the old string attached of "heads, I win, tails, you lose."

The Republicans in Kentucky have never had occasion to win at one half such a game as they have since their party procured the assassination of Governor Goebel.

If the Republicans imagine that their continued defiance of law shall operate to overshadow their greater crime in the murder of Governor Goebel, they are reckoning without their host.

Although the Republicans have proven themselves to be knaves, we all know they are not fools; so there's not one of them who believes Jack Chinn was in the most remote way connected with the assassination of Governor Goebel.

If Taylor had no knowledge of the plot to assassinate Governor Goebel before or after it was accomplished, he owed it to himself, to the State and to his constituents to wash his hands of that whole crowd of cut-throats and assassins, and to show to the world by leaving them and not protecting them with the militia, that he abhorred such dealings.

HYGIENE OF PUBLIC SCHOOLS.

Deficient and Defective Sanitary Regulations Often the Cause of Impaired Hearing and Eyesight.

Impairment of sight and hearing are on the increase in the public schools all over our land. This is especially true in our great cities, where there is not sufficient light—say 35 square inches per capita—overcrowding, deficient sanitary regulations, poor drainage and poor ventilation.

Anything that will cause a boy or a girl to take cold will produce a sore throat. Nine-tenths of the trouble in the middle ear comes from the throat. Look at the anatomy of the region for just one moment and tell me what you find. The mucous membrane that lines the upper air passages extends right up the Eustachian tube into the cavity of the drum. When it becomes affected with what is known as a common head cold—or simple catarrh there soon comes on a feeling of fullness, ringing in the ears and impairment of hearing. This is caused by the mucous membrane lining the passage from the throat to the ear becoming swollen and closed. Sometimes there is a chill followed by a fever, but very often there is not this disturbance.

In this climate ventilation of school rooms by doors and windows is a miserable failure. Go with me into any over-crowded, poorly ventilated school room on a bitter cold day and consider for just one moment what state of things you find. An hour or two after the school is called to order by the teacher the air is so completely poisoned that it is positively dangerous to all who are so unfortunate as to be compelled to breathe it. The very moment you open a window to give the children a fresh breath of oxygen you cause a draught that will soon light up the fires of all kinds of throat and lung troubles. A cold caught at school affects different children differently. Why this is so, is hard to tell. One child takes a common head cold, another an ordinary sore throat with pain and difficulty of swallowing, another one, a laryngitis with complete loss of voice, while still another is affected with pneumonia and all its dire consequences. Since I came here a year ago I have seen more than fifty cases of impaired hearing and been able to trace almost every one of them to a cold caught at school.

The successful ventilation of a room depends not so much on the quantity of air which it contains, as to the quantity which is introduced and expelled within a certain period. As I have already said that every time we breathe we take into the lungs 300 cubic centimeters of air, and of course with every expiration we breathe out the same quantity, and what has been the change? Air that has been breathed once has lost five per cent. of its oxygen and gained five per cent. of carbonic acid. From 350 to 420 cubic feet of air passes through the lungs of an adult every twenty-four hours. If we were to condense the carbonic acid into solid form it would give eight ounces of pure charcoal per diem or about 180 pounds a year—say almost as much as a barrel of flour in one big lump. That is enough charcoal to blacken all the niggers in the minstrel business in the United States for ever so long. Are we not wonderfully and fearfully made, and are not these rapid and mysterious changes going on in our bodies almost beyond our comprehension? Is it any wonder we get sick and die because we do not know enough to find out and obey the laws of nature?

A volume could be written on the imperative necessity of fresh air in the school room. Even the most casual observer can tell the very minute he enters one of them the condition of the atmosphere by the amount of cheerfulness, activity and lively interest pervading the pupils. Wherever you find the greatest listlessness and stupidity there you will find a vitiated atmosphere. Using the brain in such a place is like working with a blunt instrument and the effect must of course be aggravated where the inexperienced are learning the use of the instrument. Breathing bad air permanently injures the mind as well as the body. If the blood which is sent from the lungs, through the system is imperfectly aerated, no organ feels it as much as the brain. Its immediate effect is to cloud the mind and depress its energies. Sharpness of attention, clearness of apprehension and readiness of memory are all impaired. The health of the mental and bodily functions, the spirit temper, disposition, the correctness of the judgment, the brilliancy of the imagination all depend directly upon fresh air. Now how much fresh air do we need? Every time we breathe, we take into the lungs 300 cubic centimeters; at eighteen respirations per minute this would give about eighteen cubic feet per hour. I have seen many school rooms containing from fifty to seventy-five children where there is an imperative call for a thousand cubic feet of fresh air per hour.

Air that has been breathed over more than once soon ceases to support life! The story of the Black Hole of Calcutta told the tale of a fearful disaster. Of the 146 men who breathed the poisoned air of that awful place for a few hours, 123 lost their lives. Oxygen is the life of the animal world and carbonic acid that of the vegetable world. If there were no plants on the face of the earth to absorb the latter, animal life would soon perish.

"Dewey, the Hero of Manila."

This play was presented to an over-flowing matinee and a full house at the Marvin Opera House. The scenery that this company carries is full and complete. In fact they set every scene without the use of the theatre scenery. This scenery portrayed the scenery around Cuba, and the destruction of the Maine. Then it shifts to the deck of a Man of War; to American Consul at Havana. Then to Manila, showing Dewey's fleet and the final bombardment scene, very vivid and thrilling. Of the company all were very clever and seemed to try to deserve the applause given them. One of the cleverest things so seldom seen is the exact double of a noted person. We refer to Mr. W. C. Tanner, who is the perfect counterpart of Admiral Dewey. One would almost be positive that the Admiral himself was before you, in looking at Tanner. The support of the leading characters was very good, and the show, as a naval melodrama, was instructive as to American sailors, American battleships and patriotism. Besides the plot includes a nice love story, some comedy and as we said, very realistic scenery.—Daily Jeffersonian, Findlay, O., March 17.

OFF FOR MANILA.

Two Maysville Boys Left Thursday to Join Uncle Sam's Forces in the Philippines.

Fort Slocum, N. Y., March 18, 1900.

Dear Bulletin: Two American boys who are proud to claim old Maysville as their home and Kentucky as their native State, are among the 1,000 soldiers now stationed at Fort Slocum, David Island, on Long Island Sound, that have been drilled and disciplined for the past five months to do duty in that strictly systematic institution our Uncle Sam's army in the Philippines. After weeks of impatience and restlessness on the part of these young Americans the order has at last been given out and we are to go on board the transport Sumner, lately made new and low the most elegant in service in New York harbor, Thursday, March 22nd, sailing via the Suez Canal, touching Gibraltar, stopping three or four days at Hong Kong, where the men will be marched around, thus giving an opportunity to relieve the sea-going experience, also, the rare privilege of sight-seeing in that quaint Eastern city, a privilege all the men look forward to with a deal of pleasure.

The fellows are eager to depart and notwithstanding only a few of them have crossed the ocean before, they are confident that ere the narrows have been left behind, all will have experienced "seasickness" to the extent of "vast heaving" at last.

Our treatment at Fort Slocum has, in the main, been good, considering that this is a place to drill recruits and not a regular post. We ate our farewell dinner last Wednesday—quite an expensive affair to Uncle Sam—a most delightful feast for the men. We two were especially reminded of our old Kentucky home where we both have eaten many a Xmas dinner similar to this one we have just been treated to, but we cannot say just where our next will be spent; mayhap we will have been captured and eaten ourselves by some Filipino tribe for it seems to be the fate to eat American prisoners, among certain of those natives.

A "BULLETIN" would be eagerly read by us two Maysvillians and we intend to subscribe as soon as we are located permanently.

With best wishes for Maysville and Maysvillians, specially the Board of Trade, we beg to remain, very truly, yours,

CORR. CLAY S. WORICK,
3rd Infantry.
SERGT. JOHN S. STEPHENS,
20th Infantry.

Old Age.

Old age as it comes in the orderly process of Nature is a beautiful and majestic thing. The very shadow of old age which threatens it makes it the more prized. It stands for experience, knowledge, wisdom and counsel. That is old age as it should be. But old age as it so often is means nothing but a second childhood of mind and body. What makes the difference? Very largely the care of the stomach. In youth and the full strength of manhood it doesn't seem to matter how we treat the stomach. We abuse it, overwork it, injure it. We don't suffer from it much. But when age comes the stomach is worn out. It can't prepare and distribute the needed nourishment to the body, and the body, unenriched, falls into senile decay. Dr. Pierce's Golden Medical Discovery is a wonderful medicine for old people whose stomachs are "weak" and whose digestions are "poor." Its invigorating effects are felt by mind as well as body. It takes the sting from old age and makes old people strong.

DO YOU KNOW

We carry a full line of The United States Paint Company's goods prepared ready for use in twenty-one beautiful and durable shades, put up in pint, quart, half gallon and one gallon cans, five gallon buckets, half barrels and barrels. Full weight; full measure; every gallon guaranteed.

This Paint.....

is not a cheap substitute for white lead, but a mixture of carbonate of lead and zinc combined with pure linseed oil on such a scientific principle as to resist the action of the elements.
